Commissioner Wefald then stated that two items to be discussed at the next Board of Directors Meeting were (1) a motion by the transmission owners at the May 2003 MISO Advisory Council meeting, which was the subject of a June 10, 2003 memo by Commissioner Wright, and (2) a document entitled "MISO Advisory Process – Role of State Commission Representatives." It was then suggested that an additional agenda item for the next Board meeting should be implementation of the OMS work group effort. Some preliminary discussion of this item followed. Commissioner Wefald asked that each OMS state send Commissioner Wright the names of their staff that are already serving on MISO committees, as well as the names of staff that are interested in the topics covered in the 6 OMS work groups. Commissioner Gaw noted that each work group should have at least one involved Board member. Commissioner Wefald stated that state commissioners not serving on the OMS Board of Directors are encouraged to also participate in the OMS work groups. Commissioner Munns emphasized the importance of each work group establishing timelines and work plans for their work.

It was moved and seconded that the meeting be adjourned. The motion was approved.
